### AVIENT SOLUTION

reSound™ OM TPEs

### WHY AVIENT?

- Formulated TPE with 43% bio-based content plus favorable UV resistance and vibration damping performance compared to standard TPE
- Received radiocarbon (C14) international certificate for bio-based content
- Provided excellent bonding ability with good aesthetics
- Matched design specs with an easily colored material using traditional TPE colorants

### KEY REQUIREMENTS

- Suitable for overmolding onto PC and TPU
- Contains bio-renewable content
- Vibration damping performance and UV resistance comparable to traditional TPEs
